## TEXTURED SHEETS

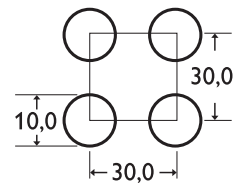

### SR 10 U 30

Texture depth approx. 0.3 mm

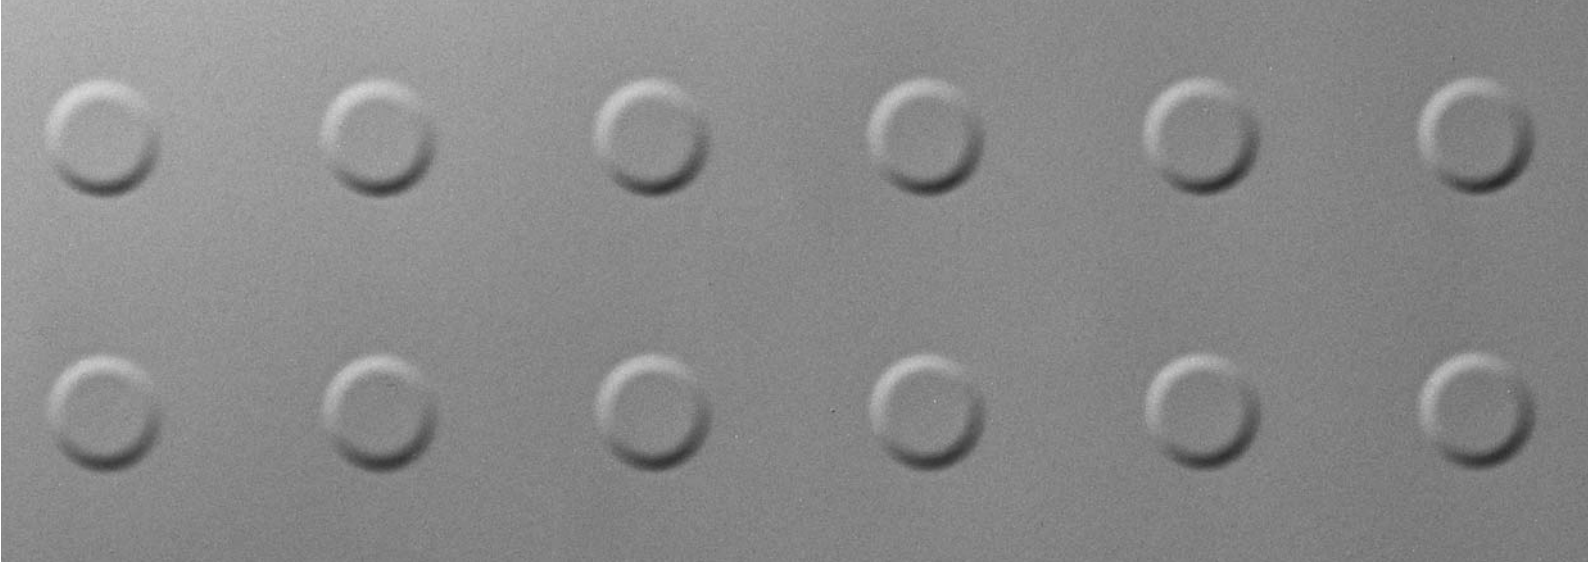

During punching, approximate evenness of the perforated sheets is achieved. There is no resistance to slipping according to DIN 51130.

\*Textured sheets made of aluminium with PVC coating:

Minimal scratching and clean surfaces, PVC coating applied contamination-free, without bubbles, trimmed edges with no or minimal burring, drawn metal ensures low tension.
